

WHAT COULD ACCESS MEAN FOR YOU?

M28® Twin Turboprop – Adventure Awaits

We work in a complex global environment. While emerging economies accelerate and new conflicts intensify, the development of infrastructure won't keep up with the pace of change. Staying ahead in next-generation air logistics means getting into and out of your strategic zones – before your competitors or adversaries.

Backed by a world leader in highly-versatile flight solutions, the M28® multi-purpose utility airplane (designed and produced at PZL Mielec a Sikorsky Company) is trusted worldwide in some of the most hostile environments and extreme altitudes. With short takeoff and landing capabilities and payload performance among the best in its class, the M28 aircraft represents the best value solution for a wide range of military and commercial applications.

PZL Mielec M28 05	CASA C212	King Air 350i
1,800 FT	2,191 FT	3,300 FT

Takeoff distances among select utility aircraft.

Near or Far, We've Got You Covered

Our new state-of-the-art Customer Care Center is the heart of our customer support.

Open around the clock, fully staffed with technical and logistics experts, the center is ready to receive your call for assistance. All customer needs are logged, assigned and rapidly solved. Solutions are communicated as fast as possible and cases remain open until the customer confirms resolution. This center is staffed with the sole purpose of solving your needs to keep your aircraft available and flying.

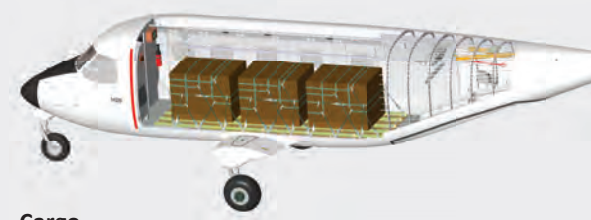

CONFIGURATIONS
