M28 IN THE GRIP OF SNOW

The M28 short take-off and landing (STOL) aircraft has been deployed on heavy cargo ferrying missions in Canada. The aircraft had to confront the remote and desolate lands of the Labrador Peninsula and Newfoundland in severe cold and extremely low temperature. [Learn more.](#)

DON'T FORGET TO CHECK THE UPDATED SERVICE BULLETINS

- Exchange batteries from NiCd to lead acid following the Service Bulletin No E/12.127R2/2019
- Exchange of navigation and landing/taxi lights for LED based on Service Bulletin No E/12.140/2018.
